Energy Markets and Sustainability in a Larger Europe

9th IAEE European Energy Conference
June 10-11-12, 2007 in Florence/ Italy

Conference Objective

Europe faces new challenges as regards energy: its increasing dependence from outside, creating problems of security of supply and of uncertain costs; the sustainability aspects and the leading role the EU has taken in the Kyoto process; the difficulties in homogenizing the energy markets in the very heterogeneous Member countries. As energy was a crucial ingredient of the first steps of the European unification (through the Community of coal and steel and through Euratom) so it could become again a central theme around which a larger Europe could be built.

The energy paradigm is undergoing deep changes, still to be fully appreciated. Not only new technological solutions are emerging and diffusing (starting from renewables and efficient end-use technologies), but new policy instruments are taking shape, just as important as the technologies.

Market-oriented approaches are diffusing rapidly, but they have to take adequately into account externalities, public acceptance, sustainability and other long-term goals, while paving the ground for real and effective competition.

The increasing threats to the security of supply call not only for new technological and institutional solutions, but also for new dimensions in the relations with our neighbouring countries.

These topics will be at the base of the presentations and discussions at the 9th IAEE European Energy Conference in Florence, which is organised by the Associazione Italiana Economisti dell'Energia (AIEE), the largest European affiliate of IAEE, in cooperation with the International Association.

Conference Committee

General Conference Chair:
Programme Conference Chair:
Organization Committee Chair:

Carlo Andrea Bollino, IAEE President Elect, Vice-President of AIEE, Italy
Ugo Farinelli, General Secretary of AIEE, Italy
Edgardo Curcio, Chairman of AIEE, Italy

Programme Committee

UGO FARINELLI (CHAIR)
AIEE, Italy

MASSIMO BECCARELLO
Professor, University Bicocca of Milan, Italy

PIERGIORGIO BERRA
Consultant of Italian Regulation Authority of Energy, Italy

FATIH BIROL
Chief Economist, IEA/OECD, France

JEAN PHILIPPE CUEILLE
Professor IFP School, Paris, France

VITTORIO D'ERMO
Professor University of Rome, Italy

GEORG ERDMAN
Professor TU, Berlin, Germany

MASSIMO FILIPPINI
Professor, University of Lugano, Switzerland

ALESSANDRO LANZA
Chief Economist ENI, Italy

LENA NEIJ
Professor IIIIEE, Lund, Sweden

ROBERTO VIGOTTI
Chairman Renewable Working Party - IEA, Italy

JURGIS VILEMAS
Lithuanian Energy Institute, Lithuania

Who Should Attend?

Energy Company Executives and Managers	Economic Energy Risk and Derivatives Specialists
Energy Policy Analysts	Oil and Natural Gas Executives
Governmental Employees in Energy Resource Planning	Investment Banks
Academics Specializing in Energy Policy and Analysis	Electric and Utility Supervisors
Electricity Pricing and Market Analysts	Energy Environmental Analysts
Energy Consultants	Geologists and Engineers
Energy Company Planners	Environmentalists
	Energy Journalists

Conference Structure

Plenary Sessions

The European enlargement together with the current liberalization process have set new challenges for the European Energy Markets. The need to balance the increasing energy demand with scarcer domestic resources is the newest European Union's top priority in order to ensure a sustainable development, competitiveness and security of supply.

A first step to reduce the growing demand is to minimize energy waste by adopting measures of energy efficiency. The importance of this issue will be discussed in the first Plenary Session of the 9th IAEE European Energy Conference dedicated entirely to the Economics of Energy Efficiency.

A different approach will be followed by the second Plenary Session, charged to analyze the problems concerning the Security of Supply, especially of what truly affects Europe for the next decades such as diversification of producing areas, lack of infrastructure, security of investments, scarcity of energy resources and growth of geopolitical risks.

All of these problems together with energy regulation and a complete liberalization of energy markets are also components of what concerns a Wider EU Energy Market, to which is devoted the third Plenary Session.

Last but not least, a solution to meet climate change constrains and to reduce European dependency from fossil fuels and non-European energy producers is to bolster the renewables industry, particularly dynamic in the Euro zone. The fourth Plenary Session, entitled Implementing Renewables, will debate the role of these resources in the EU Energy Market and their competitiveness in the next years.

Concurrent Sessions

Four of the concurrent sessions should be devoted to further discussing the four themes covered in the plenary sessions, both to present additional papers on these subjects and to comment the presentations in the plenaries.

Other themes that will be accommodated in the concurrent sessions:

- ◆ Transmission and transportation infrastructures in a liberalised environment
- ◆ Experience curves cost development vs. value
- ◆ Policy measures to accelerate development of RES
- ◆ Integration of intermittent RES into energy markets
- ◆ Market instruments to improve energy efficiency
- ◆ Improving social acceptance of energy infrastructures
- ◆ Liberalisation and regulation of the European energy markets
- ◆ Demand side management
- ◆ Regulatory regimes in the larger Europe
- ◆ Geopolitics of energy
- ◆ Biofuels prospects
- ◆ Energy, environment and emission trading
- ◆ Environment and the Kyoto Protocol: further development Post Kyoto

Registration fees

REGISTRATION FEES are payable in advance. Conference registration fees may be paid by check, credit card or wire transfer. Hotel and related travel costs are not included in registration fees. Registration fees include: registration materials, 2 lunches, one gala dinner and 4 coffee breaks. Students: submit a letter stating that you are a full-time student and are not employed full-time. The letter should provide the name and contact information for your main faculty supervisor or your department chair and a copy of your student identification card. IAEE reserves the right to verify student status.

		before April 30, 2007	after April 30, 2007
Speakers/Chairs	€	430	430
IAEE Members	€	600	650
Non-Members	€	700	750
Full-time Students	€	250	300
Guests (1)	€	250	300
Proceedings CD Rom	€	100	100

(1) including gala dinner, visit to Uffizi Gallery, one city tour - no meeting sessions

9th IAEE European Energy Conference

Preliminary Conference Programme

SUNDAY, June 10

REGISTRATION

08.00-20.00

IAEE COUNCIL MEETING

(Sala Carrega, by invitation)
08.30-16.30

WELCOME COCKTAIL FOR PARTICIPANTS IN THE GRAND HOTEL BAGLIONI

18.00-20.00

MONDAY, June 11

REGISTRATION

08.00-19.00

ISTANBUL CONFERENCE PLANNING MEETING

(Sala Carrega, by invitation)
07.00-08.30

CONCURRENT SESSIONS

08.30-10.15

COFFEE BREAK

10.15-10.30

OPENING SESSION

(Sala Michelangelo)
10.30-11.15

Welcome Speech: **Carlo Andrea Bollino**

General Conference Chairman

Opening Address: **André Plourde**
IAEE President

PLENARY SESSION

Economics Of Energy Efficiency

(Sala Michelangelo)
11.15-12.30

Fabrizio Barbaso

Deputy Director-General of Energy and Transport, EU, Belgium

Claude Mandil

Executive Director, IEA, France (invited)

Eberhard Jochem

Professor, ETH-CEPE, Switzerland

LUNCHEON AND IAEE

AWARDS

12.30-14.00

PLENARY SESSION

Security Of Supply

(Sala Michelangelo)
14.00-15.15

Paolo Scaroni

CEO, Eni, Italy (invited)

Roberta Luxbacher

Director Europe, ExxonMobil Gas & Power Marketing, UK (invited)

Flavio Cattaneo

CEO Terna, Italy (invited)

COFFEE BREAK

15.15-15.30

CONCURRENT SESSIONS

15.30-17.15

GUIDED VISIT TO UFFIZI GALLERY

18.00-20.00

GALA DINNER AT PITTI PALACE

20.00-22.00

TUESDAY, June 12

REGISTRATION

08.00-16.00

IAEE EUROPEAN AFFILIATE LEADERSHIP MEETING

(by invitation)
07.00-08.30

IAEE STUDENT

SCHOLARSHIP BREAKFAST

(by invitation)
07.00-08.30

DUAL PLENARY SESSION

A Wider Eu Energy Market

(Sala Michelangelo)
09.00-10.30

Alessandro Ortis

President of the Italian Energy Authority, Italy

Lord Howell of Guildford

House of Lords, UK (invited)

Representative of Energy Research Centre of the Netherlands

Vidmantas Jankauskas

Chairman, Price Control Comm., Lithuania (invited)

Implementing Renewables

(Sala Giotto)
09.00-10.30

Representative of BP

UK

Hans Jorgen Koch

Deputy State Secretary, Ministry of Economic and Business Affairs, Denmark (invited)

Arthouros Zervos

President, European Wind Energy Association, Belgium (invited)

COFFEE BREAK

10.30-10.45

CONCURRENT SESSIONS

10.45-12.30

LUNCHEON AND IAEE

AWARDS

12.30-14.00

CONCURRENT SESSIONS

14.00-15.45

COFFEE BREAK

15.45-16.00

CONCURRENT SESSIONS

16.00-17.45

CLOSING SESSION

(Sala Michelangelo)
17.45-18.15

Arnold Baker

Chief Economist, Sandia National Laboratories, Norway (invited)

Carlo Andrea Bollino

IAEE President Elect, Italy

10-12 June 2007 in Florence, Italy

Grand Hotel Baglioni
Piazza Unità Italiana, 6

Venue

The Venue is Grand Hotel Baglioni a symbol of Florentine hospitality, since 1903 it preserves the charm and elegance typical of the Florentine tradition and is equipped with all the modern comforts. Located in the very centre of Florence, this venue is 5 minutes walk from the Central Station and just near the other hotels reserved for the conference.

Grand Hotel Baglioni has played a leading role in historic and high society events, providing accommodation within its nineteenth century walls for rulers, heads of state, artists, intellectuals and travellers from around the world.

Social Events

A private guided visit will be offered to all participants and guests on June 11th to the Uffizi Gallery one of the most famous museums of paintings and sculpture in the world. Its collection of Primitive and Renaissance paintings comprises several universally acclaimed masterpieces of all time.

Delegates and accompanying persons will be also invited to the Gala Dinner on June 11th organized at the Pitti Palace, the origins of which go back to 1448. It was built for the banker Luca Pitti and it passed to the Medici family in 1549 and over the years became the residence of the grand-dukes of Tuscany and later of the King of Italy. Today it was transformed into a museum with various galleries and is hosting special cultural and social events.

An informative and enjoyable sightseeing tour through the city centre has been planned on Jun 11th for accompanying persons. A well-informed English speaking guide will accompany you through the Old Town. The tour is a real voyage of discovery through the full variety of fine paintings, decorative arts and the Florentine unique architecture.

Accommodation

Arrangements have been made with four, three and two star hotels in Florence, respectively the Grand Hotel Baglioni (****), Atlantic Palace Hotel (***), Machiavelli Palace Hotel (***), Paris Hotel (***), and Hotel Corona d'Italia (***). A special block of rooms has been reserved for participants at the Grand Hotel Baglioni at rates/night from 200 to 270 Euro. In addition we are reserving rooms in other hotels close to the venue of the Conference with special rates from 100 to 175 euro/night (b/b). Early booking for the accommodation is strongly recommended: reservation must be made before May, 15th 2007 to receive the special rates indicated in the accommodation form; reservation placed after that date will be confirmed on a space-available basis.

Student Scholarship

The Energy Foundation, a non-profit body created by Associazione Italiana Economisti dell'Energia, is offering a limited number of student scholarships to the 9th IAEE European Energy Conference.

Energy Foundation scholarship funds will be used inly to cover conference registration fees for the 9th IAEE European Energy Conference. All travel (air/ground, etc.) and hotel accommodations, meal costs in addition to conference-provided meals, etc. will be responsibility of each individual recipient of scholarship funds.

To be eligible for considerations for the Energy Foundation Student Scholarships, follow guidelines available on the conference website at: www.iaeeu2007.it.
