

SAEE2016, LULEÅ AUGUST 23-24

Meeting Sweden's Current and Future Energy Challenges

CONFERENCE OVERVIEW

We are pleased to welcome you to the Swedish Association for Energy Economics (SAEE) Conference 2016. The conference will be held August 23-24, 2016 at Luleå University of Technology in Luleå, Sweden.

The conference is international but devoted towards Swedish energy issues and challenges. Sweden is currently facing a number of energy related choices that will determine the long-term sustainability, reliability and efficiency of the energy system.

We invite participants from a wide range of research disciplines with energy as the common denominator to discuss solutions to a number of current and future energy challenges in Sweden, including integration issues with neighboring countries. The conference will address the full range of energy issues that is of interest for academics, analysts, policy-makers and industry participants.

The aim of the conference is to advance the knowledge about economic, technical, social and institutional prerequisites for a sustainable transformation of the Swedish energy system and explore its dynamic consequences on energy markets, technologies and systems as well as on the development of technology and markets.

On behalf of the organising committee I wish you all a very warm welcome to Luleå For this special event.

Robert Lundmark
General Conference Chair

CONFERENCE TOPICS

The conference will be organized around plenary sessions with invited keynote speakers and specialized sessions for participant presentations. Special focus will be towards the following key issues and topics:

- Energy system implications
 - The future of nuclear power

SAEE2016, LULEÅ AUGUST 23-24

Meeting Sweden's Current and Future Energy Challenges

Call For Papers

VENUE

The conference sessions and meetings will be held in the auditoriums and lecture rooms in the Alpha-building at Luleå University of Technology approximately six kilometers outside of Luleå city.

The conference dinner on the 23 August will be held in the city of Luleå as will most of the accommodations.

The climate in Luleå in August is usually pleasant with a temperature around 20° C, sun rise at 4 AM and sun set at 9 PM.

CONCURRENT SESSION ABSTRACT FORMAT

We welcome submissions from researchers, industrial sector and public sector representatives. Authors wishing to participate in the concurrent sessions must submit an abstract that briefly outlines the research or case study to be presented. Please use the dedicated webbased system for submissions.

The abstract must not be longer than two pages and must include an overview of the topic, including its background, potential significance, methodology as well as preliminary or expected results and conclusions. Relevant literature should be cited accordingly.

A abstract template is available for downloading from the conference website. All submissions must conform to the template and the outline indicated therein. All submissions must be submitted online. Please visit www.ltu.se/saee2016 for details.

Those who wish to take advantage of sponsorship opportunities, to distribute promotional literature or have exhibit space at the conference are invited to contact saee2016@ltu.se

Abstract submission deadline:

Thursday 31 March 2016
www.ltu.se/SAEE2016

PRESENTER ATTENDANCE

At least one author of an accepted submission must pay the registration fees and attend the conference to present the paper. Authors will be notified by 30 April 2016 of the status of their submission. The extended abstract and full paper submission deadline is 31 May 2016.

VISIT LULEÅ

Luleå is the regional capital of the ever expanding Swedish Lapland. New businesses and new possibilities characterise this friendly city on the coast of the Gulf of Bothnia. Luleå offers a wide range of modern hotels, conference and meeting facilities, restaurants, arenas and a dynamic business sector open for interesting technical visits. Transfer to and from the airport takes no more than 15 minutes. Luleå offers all kinds of activities. In winter, you can be captivated by the polar night and the Northern Lights. In summer, Luleå offers magically bright nights thanks to the midnight sun. The Gammelstad World Heritage Site with hundreds of church cottages surrounding the medieval church, is well worth a visit. The archipelago also offers spectacular adventures.

Welcome to Luleå!
