Energy supply, sustainability, electric mobility: Regional challenges and opportunities

17-19 September, 2020

TOPICS TO BE ADDRESSED INCLUDE:

- Petroleum Economics
- Economics of Gas Trading
- Geopolitical Competition in the Caspian Basin and Middle East
- Energy Modeling
- Energy Markets and Regulation
- Challenges in Gas Supply and Transportation
- Energy poverty and Subsidies
- Regional Energy Markets
- Energy Policy for Sustainable Development
- Energy Supply, Demand and Economic Growth
- Security of Energy Supply
- Regional Electricity Trade
- Energy Efficiency and Storage
- Regional Strategies for Alternative and Renewable Energy
- Energy Finance and Asset Valuation
- Risk Management in Energy
- Eurasian Energy Outlook

Oil and gas producing countries in the Caspian basin and Central Asia region have experienced rapid economic growth over the last decade under high energy prices, while suffering from highly volatile global energy prices. These countries have rich hydrocarbon, hydro, renewable and alternative energy resources and geopolitical advantages. There are issues with rational use and effective management of these energy resources. Playing an important role for Europe’s energy security, the efficient use of investment and innovative opportunities in the energy sector of these countries and the formation of a regional energy market are among the most crucial issues.

To address the energy challenges in Eurasia region, the IAEE has started conducting a series of Eurasian conferences. Previous IAEE Eurasian Conferences were held twice in Baku, Azerbaijan, once in Zagreb, Croatia, and Nur-sultan (Astana), Kazakhstan. Check their programs and photos at www.eurasianconference.com/eurasianseries

CONFERENCE OVERVIEW

The 5th Eurasian Conference will take place in Azerbaijan Technical University and Baku Higher Oil School, Baku, Azerbaijan, on September 17-19, 2020.

In addition to its rich program, with its informal social functions, the conference will provide a unique opportunity for networking and enhancing communication amongst energy professionals from business, government, academia and other circles worldwide.

The conference program is being prepared by an International Program Committee to ensure that critical issues of vital concern and importance to governments and industries are presented, considered and discussed from all perspectives. In this context, many existing sessions on key current energy issues, featuring internationally established speakers and lively discussions, can be expected. The local arrangements are being planned by a Local Organizing Committee to guarantee excellent logistics at best quality. The Sponsorship Committee works to make sure the rich program and arrangements of the conference get available to delegates at affordable rates.

CONFERENCE VENUE:
Azerbaijan Technical University & Baku Higher Oil School

The deadline for receipt of abstracts for Concurrent Sessions is Friday May 8, 2020.

**Concurrent Sessions**

There are two categories of concurrent sessions:

1) Academic research on energy economics, and

2) Case studies involving applied energy economics or commentary on current energy-related issues.

The latter category aims to encourage participation not only from industry but also from the financial, analyst and media/commentator communities. Presentations are intended to facilitate the sharing of both academic and professional experiences and lessons learned. It is unacceptable for a presentation to overtly advertise or promote proprietary products and/or services. Those who wish to distribute promotional literature and/or have exhibit space at the Conference are cordially invited to take advantage of sponsorship opportunities.

**Abstract Format**

Authors wishing to make concurrent session presentations must submit an abstract that briefly describes the research or case study to be presented. The abstract must be no more than two pages in length and must include the following sections:

a. Overview of the topic including its background and potential significance
b. Methodology: how the matter was addressed, what techniques were used
c. Results: Key and ancillary findings
d. Conclusions: Lessons learned, implications, next steps
e. References (if any)

Please visit www.eurasianconference.com/abstractformat to download an abstract sample and template.

All abstracts must conform to the format structure outlined in the template. Abstracts must be submitted online by visiting registration.ccevent.org/baku2020

Abstracts submitted by e-mail or in hard copy will not be processed.

Paper submission is optional.
