

Name of journal: ***Economics of Energy & Environmental Policy***

Impact Factor (2016): 1.297
5 Year Impact Factor: 2.211

Description: *"Economics of Energy and Environmental Policy"* (EEEP), is policy oriented. It focuses on all policy issues in the interface between energy and environmental economics. It provides a research-based, scholarly, yet easily read and accessible source of information on contemporary economic thinking and analysis of energy and environmental policy. EEEP features articles on climate policy, energy market design, competition policy, emission trading, energy, environment and developing countries, taxation and fiscal policy issues, demand response tools, energy security, renewable energy policy, natural resources policy for energy extractive industries, sustainability of energy systems and others.
