

11th NAEI/IAEE ANNUAL INTERNATIONAL CONFERENCE

DATE: 22 – 24 APRIL 2018, ABUJA, NIGERIA
VENUE: PTDF CONFERENCE CENTER ABUJA, NIGERIA.

THEME:
NEW ERA IN GLOBAL ENERGY LANDSCAPE: IMPLICATIONS FOR AN EMERGING ECONOMY

Energy supply mix and energy security, energy access for all at affordable price as well as sustainability and optimization of primary energy for value creation are germane issues to understanding the implications of the changing global energy landscapes on emerging economies. Therefore, the 2018 NAEI/IAEE International Energy Economics Conference offers a platform for exchange of ideas among energy professionals in business, academia, government and other stakeholders to address these issues, especially for a petroleum dependent economy such as Nigeria. Three plenary sessions, with invited energy experts from government, industry and academia, provide a platform to discuss, debate, and proffer policy framework in emerging economies for sustainable economic development in the wake of emerging global energy landscapes. Over 100 technical and policy papers have been proposed for presentation during the 2-day conference on topical issues such as:

- Energy Supply Mix & Pricing Policy
- Energy Poverty, Access, Subsidies
- Energy Institutions & Industry Governance
- Renewable Energy & Economic Growth
- Energy, the Environment & Economy
- Energy Diversification & Optimal Pricing
- Power Sector Reform and Regulations
- Energy Efficiency & Conservation
- Exhaustible Energy Utilization Challenges
- Petroleum Revenue Management & Security
- Geopolitics of Energy Resources & Supply
- Energy Demand, Economic Growth & Development
- Climate Change Economics & Policy
- Low Carbon Emission, Exploration & Production
- Electricity Market Innovations
- Renewable Energy Market Potentials
- Energy Investment, Finance & Risks
