

IAEE

International Association for
ENERGY ECONOMICS

Webinar Statistics

The International Association for Energy Economics has created an extensive program of webinars on topics reaching all facets of energy economics. Our webinars are free to view on the day of the event. Rewinds are freely available to IAEE members, and select videos are available, open-access, to the world.

Statistical Highlights:

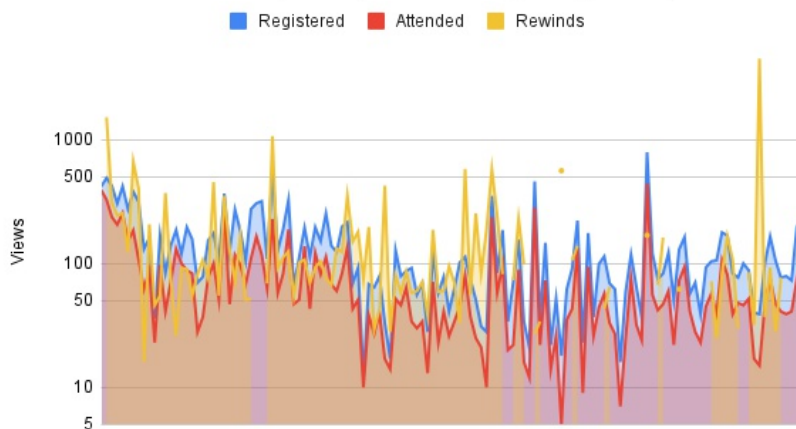

Since launching our program at the beginning of the pandemic in 2020, we have hosted 134 webinars, an average of 2 a week.

Over 10,000 viewers from across the globe have watched IAEE webinars.

Our webinars have attracted over 440 viewers for a single event.

Our rewind platform has served up over 20,000 views to guests interested in the field of Energy Economics

Webinar Statistics - April 14, 2020 through August 23, 2021

Most popular topics include:

- The Circular Carbon Economy
- Hydrogen and Energy Economics
- The Texas Freeze
- Energy Security
- Impacts of the Corona Virus on Energy Markets
- Sustainability

We invite you to join us for an upcoming event! Visit <https://www.iaee.org/en/webinars/> to see our current lineup of topics.
